STRIKING MACHINISTS .- Eight machinists and one apprentice recently employed at the shops of the Southern Railway in this city were out of a job this morning, the result of the action of striking machinists in other cities for a nine-hour day. Yesterday notices were posted at the navy yard and other places in Washington to the effect that a meeting would be held in Alexandria last night for the purpose of organizing a machinists' union, and inviting those following that occupation to attend, Schuler's Hall was to be the scene of the gathering, and the intended meet-ing having been noised about some who were not machinists, prompted by curiosity, were on hand. When the meeting was called to order it was stated that all who were not machinists must retire, as matters concerning them alone would be considered. After satisfying themselves that all present were—of that occupation, the object of the meeting was stated by the parties who had come here from Washington. Eight workmen from the Southern Railway shops were present. It is im-possible to say whether a union was tormed or not as all occurred says. formed or not, as all concerned seem as loth to talk as though they were called upon to "give away" the ritual of the Sons of Malta, but this much is certain; when the eight men-three Alexandrians and five who are natives of other places-appeared at the shops this morning, they either resign were told their services were no longer needed, and the latter seems nearer the truth. There were 27 ma-chinists employed here, together with an equal number of apprentices. The an equal number of apprentices. report that the latter were about to give trouble proved to be unfounded. to give trouble proved to be discussed.

To Protest.—There was a meeting of the Relief Hook and Ladder Company last night. Mr. Park Agnew pre-sided. Some routing sided. Some routine business was transacted, but the subject which ab-sorbed most attention was that in connection with the proposed new house for the company. The City Council, it seems, is contemplating the purchase of a lot on the west side of Royal street, between Cameron and Queen, as the site for a new truck house, while the company is averse to moving to that company is averse to moving to that neighborhood, and urge a number of reasons why their house should be on the square where it is now located. It will be remembered that a proposition for the purchase of the lots east of the for the purchase of the lots east of the present house and running to the alloy was recently submitted to Council, but the committee to whom it was referred

A SUMMER MARKET.—The market was well attended by both buyers and sellers this morning, and there was consideral animation during the early hours. There was an abundance of nearly everything in season. Some produce, however, remains firm, especially eggs, which were selling at 17 a 18c when the market opened. Chickens were held at 30c each, and butter at 25c, although prices for the latter soon gave way, and before noon a good article could be bought as low as 16c. Strawberries were very plentiful, and the average price at the opening of the market was 6c a box. Half an hour later they were being hawked in the arrests at 4c. Other articles were quoted as follows: Cabbage 3a5c per head; cauliflower 5x10c; beets 3a5c a bunch; onions 1c; radishes 2c, or three bunches for 5c; carrots 3c; lettuce 1a3c per head; rhubarb 5c; turnips 3c a quarter peck; spinnsch 5c; green peas 8c; asparagus 8c ents per bunch. CORPORATION LICENSES. - Commissioner of Revenue Callaban is busily engaged in issuing city licenses for the fiscal year beginning June 1. Mr. Callahan reports no diminution in license to insurance companies, although it was thought that the increase, in the amount from forty to fifty dollars per annum upon each company would cause a decrease. This has not de veloped. Upon the contrary it is thought there will be an increase as all the insurance agents know that the city intends to procure an extra fire engine and not again be placed in a position like that of the last two months, and which thus far has resulted in no losses by fire. Mr. Callaban says lif-insurance people express themselves as failing to understand how an extra fire engine lessens a death risk.

FLOWER THIEVES.—Early last night some boys were discovered in the gar-den attached to Mrs. Clara L. Leadbeater's residence, opposite St. Paul's Church, and one of the male members of the household started after the treepassers. The latter upon being surprised scaled the fence and ran. The yoursters made toward Tunneltown, and one who lagged had his cap pulled from his head by his pursuer, but the fugitive managed to escape capture. The cap was turned over to Chief Webster who is waiting for the owner. ster, who is waiting for the owner to appear and claim it. Upon an examination of the garden it was found that the youngsters had pulled up geraniums and other plants by the roots and caused much other damage.
